

# HOW TO VIEW DEMAND USAGE IN SMARTHUB

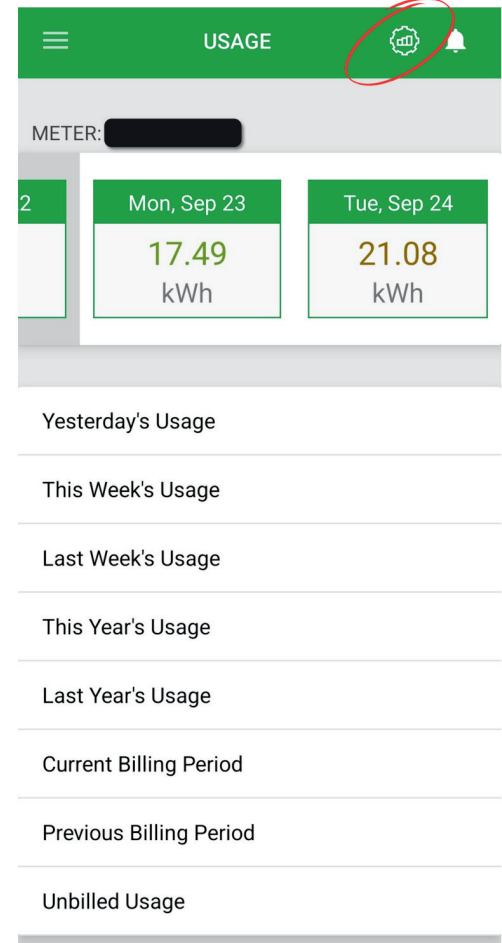

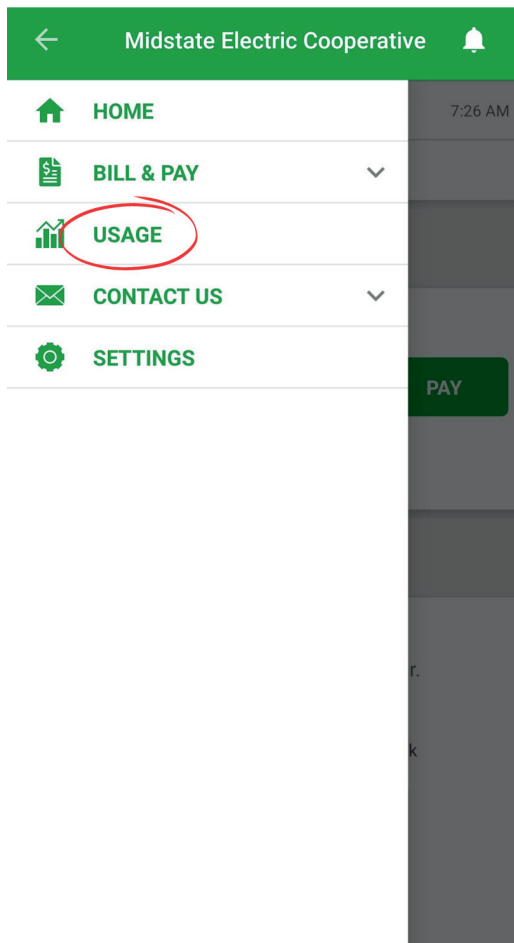

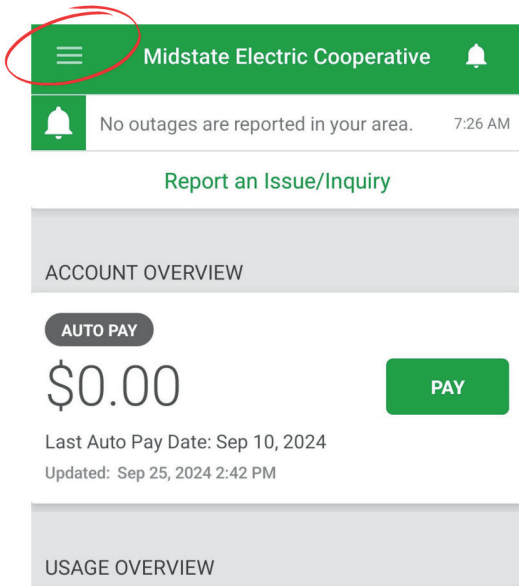

## Log in to the SmartHub mobile app:

**1** Select the button in the top left corner to display the menu.

**2** Select "USAGE".

**3** Select graph icon

📈 Your bill is 26.60% higher than last year.

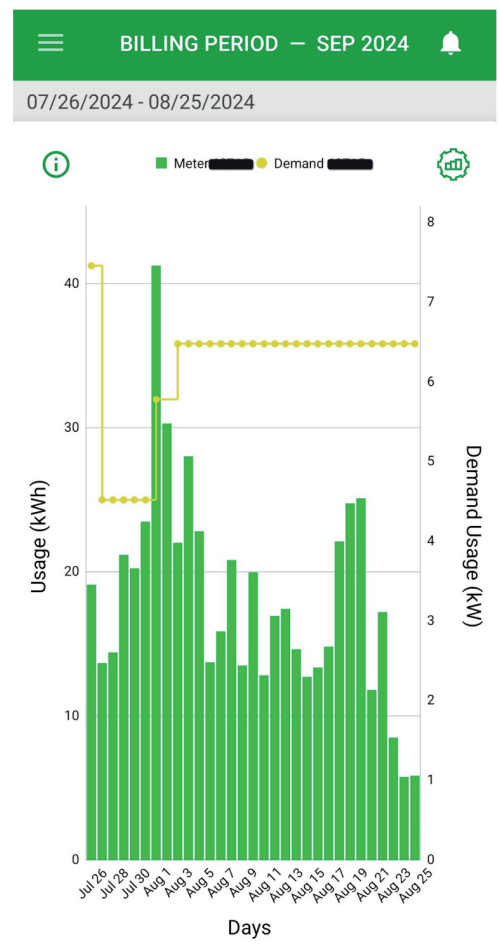

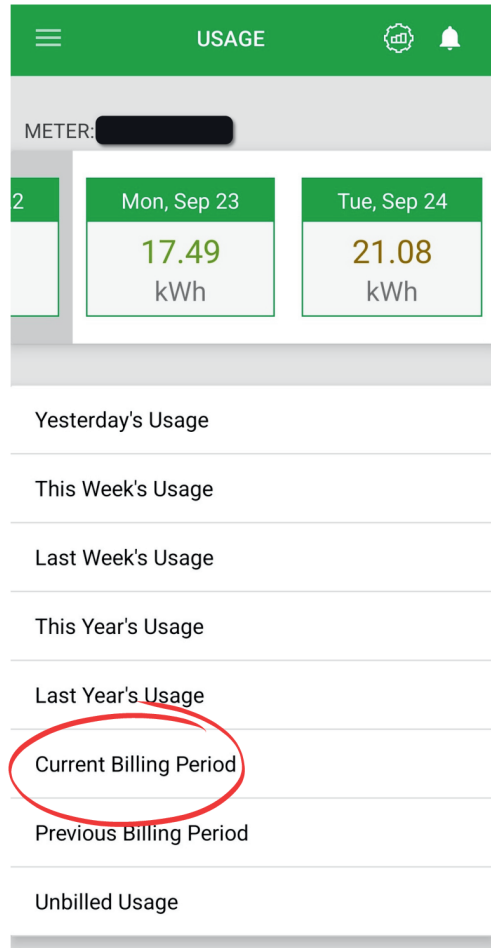

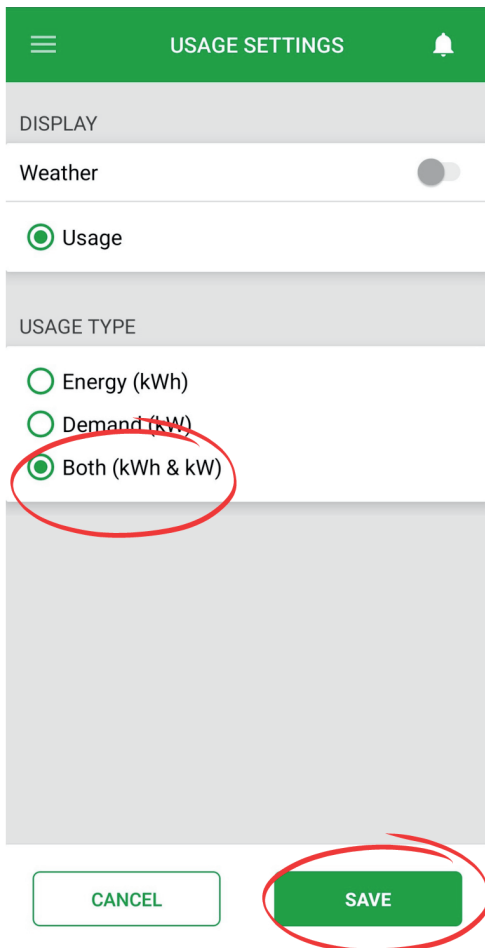

# HOW TO VIEW DEMAND USAGE IN SMARTHUB

**4** Select "Both (kWh & kW)", then SAVE.

**5** Select a billing period.

**6** Review your Usage in kWh (green bars) and Demand in kW (yellow line).

**There will only be a new reading if the peak demand exceeds the previous peak demand of the month. On this example, there was a peak on July 31, then a new peak on August 2.**

*\*Demand readings for residential meters are only available daily after midnight. Instantaneous readings are not available.*
